

## *Replacing the Hand Pulse Grips*

---

**Tools:** Phillips screwdriver

- 1) Remove console using a Phillips screwdriver (4 screws total)
- 2) Unplug the wires from the console.
- 3) Remove the two screws that hold the grip pulse handlebars together.
- 4) Remove the grip pulse handlebars and the wires from the console mast.
- 5) Insert the new grip pulse handlebars into place. Fish the grip pulse wires into the console mast.
- 6) Insert the two screws that hold the grip pulse handlebars together (Be careful not to pinch the wires when tightening the screws).
- 7) Attach the heart rate wires to the console.
- 8) Attach the console.
